REFUSE THE DRAFT CAMPAIGN

**WAR?
WHAT IS IT GOOD FOR?
ABSOLUTELY NOTHING!**

By David Icke

"War is just a racket. A racket is best described, I believe, as something that is not what it seems to the majority of people. Only a small inside group knows what it is about. It is conducted for the benefit of the very few at the expense of the masses.

"I helped make Mexico, especially Tampico, safe for American oil interests in 1914. I helped make Haiti and Cuba a decent place for the National City Bank boys to collect revenues in. I helped in the raping of half a dozen Central American republics for the benefits of Wall Street. The record of racketeering is long. I helped purify Nicaragua for the international banking house of Brown Brothers in 1909-1912. I brought light to the Dominican Republic for American sugar interests in 1916. In China I helped to see to it that Standard Oil went its way unmolested" - Major General Smedley Butler

War Is A Racket
Major General Smedley Butler

Those words by one of America's most decorated soldiers are as relevant today as when they were written some 70 years ago. War has always been a racket, a means of manipulating the masses to build their own prisons and those of the target population, be it in Vietnam, Afghanistan or Iraq.

Wars are fought by the many for the benefit of the few - the same few who never see a gun fired in anger. Those who declare wars don't fight them: the masses do.

If we didn't, there could be no war.

So why do we? Because we have been conditioned to 'obey the law' no matter how grotesque and ludicrous it may be; and we buy the cover stories of why the wars must be fought to 'defend freedom.' I give you the words of the Nazi Herman Goering:

"Why of course the people don't want war. Why should some poor slob on a farm want to risk his life in a war when the best he can get out of it is to come back to his farm in one piece? Naturally the common people don't want war; neither in Russia, nor in England, nor in America, nor in Germany. That is understood. But after all, it is the leaders of the country who determine policy, and it is always a simple matter to drag the people along, whether it is a democracy, or a fascist dictatorship, or a parliament, or a communist dictatorship. Voice or no voice the people can always be brought to the bidding of the leaders. That is easy. All you have to do is to tell them they are being attacked, and denounce the pacifists for lack of patriotism and exposing the country to danger. It works the same in any country."

Recognise that? Of course. It is precisely what we have been told since the Illuminati orchestrated September 11th to justify their campaign of mass slaughter dubbed the 'The War on Terror.' More accurately, it is the War OF Terror.

I said when they invaded Afghanistan that it was just the beginning and so it has proved. Afghanistan was only the start and Iraq is not the end. There is a long list of countries to be 'liberated,' including Iran, North Korea, and yes, even China.

The agenda is to impose a global fascist state with a world government, world army, world central bank, world currency, and a micro-chipped population. World dictatorships and superpowers which can resist the dictates of the world government do not go together. Therefore, the plan is to bring the United States and China into conflict so they destroy each other as 'superpowers' and leave the world government with its world army in total control.

See my article **THE PLAN IS TO USE AMERICA TO BREAK AMERICA**

But don't take my word for this. The agenda is laid out in a document called 'Rebuilding America's Defenses: Strategy, Forces and Resources for a New Century,' published by the Project for the New American Century (PNAC) in September 2000. This is an organisation created by the very people who have controlled the Bush administration since it came to power - people like Cheney, Wolfowitz, Rumsfeld, Perle and the other deeply disturbed 'neo-cons,' who have their influence and equivalent in the Kerry camp also. The 'Bush' administration has slavishly followed the PNAC blueprint in its invasion of Iraq, but, I stress again, it is not planned to end there. The document said in September 2000 that "while the unresolved conflict with Iraq provides the immediate justification, the need for a substantial American force presence in the Gulf transcends the issue of the regime of Saddam Hussein."

increase the numbers.

The invasion of Iraq, therefore, is only a step on the road and the violence erupting there suits the agenda perfectly because it provides the excuse to not only keep the troops in the country ("a substantial American force presence in the Gulf transcends the issue of the regime of Saddam Hussein") but also to

See VIOLENCE IN IRAQ IS BAD FOR ILLUMINATI PLANS IN THE MIDDLE EAST? NO, IT'S JUST WHAT THEY WANT

The PNAC describes American troops as "the cavalry on the new American frontier" and says they must "fight and decisively win multiple, simultaneous major theater wars" as a "core mission" and that this "American grand strategy" must be advanced for "as far into the future as possible."

The document goes on to target Iraq, Iran and North Korea and this is why the neo-con Bush speechwriter,

David Frum, produced the term 'Axis of Evil' to describe these countries when he wrote a State of the Union address for the Village Idiot 'President.' They eventually want to manipulate a conflict with China - a point I have been making for many years. The PNAC document spotlights China for "regime change"

saying "it is time to increase the presence of American forces in southeast Asia." This, it says, may lead to "American and allied power providing the spur to the process of democratisation in China." What this is describing is the America-China conflict that has been long planned to open the way for world government (dictatorship).

THE DRAFT

Clearly, there are not nearly enough men and women in uniform to fight these "multiple, simultaneous major theater wars" and so they are planning to force hundreds of thousands of young people into the military possibly beginning as soon as June 2005. This does not mean the draft WILL start at that time, but it is the earliest timescale.

Legislation is pending in the House and Senate under bills

S 89 <http://thomas.loc.gov/cgi-bin/query/z?c108:s.89>:

and HR 163 <http://thomas.loc.gov/cgi-bin/query/z?c108:h.r.163>.,

which are hiding under the radar while Iraq and the presidential election divert public attention. The bills "provide for the common defense by requiring that all young persons [age 18--26] in the United States, including women, to perform a period of military service or a period of civilian service in furtherance of the national defense and homeland security, and for other purposes." These bills are currently with the Committee on Armed Services and it will only take another manipulated 9/11-type attack to have them quickly pushed through into law.

\$28 million has been added to the 2004 Selective Service System (SSS) budget to prepare for the draft and it is apparently planned that the Selective Service will report to the President on March 31st 2005 that all is ready for compulsory military service. (See Selective Service System: Publications for the SSS annual performance plan fiscal year 2004.) The Pentagon has already begun to fill the 10,350 draft board and 11,070 appeals board positions across the country.

JUST SAY NO - EN MASSE

Avoiding the draft will be more difficult than for those from the Vietnam War

with college studies and escaping to Canada no longer options. In December 2001, Canada and the U.S. signed a 'smart border declaration,' which could be used to stop objectors to the draft from crossing the border.

This Refuse the Draft section of Davidicke.com will be a place to exchange thoughts and ideas on how best to avoid the draft. All contributions are welcome. However, the most powerful way of rejecting this fascist imposition is to inspire and co-ordinate a mass refusal to be drafted by at least tens of thousands of people. To do that we need your help, support and ideas on how to create this network of mass refusal across America.

We need (a) for the young people involved to have the foresight and courage not to be used as bomb fodder and (b) for those too old to be drafted to support in every way they can those who refuse to bow to the FIGS - fascists in government.
