

# Wisdom of Our People

Axe of Perun

## Wisdom of our People

April 9, 2016 Axe of Perun

We'll go through some of our racial Knowledge and Wisdom. It is good to actually go back and understand the Intelligence of our People, rather than to listen to modern day lunatics or read a Semitic book of nonsense. Refreshing, to say the least. **These ones are Slavic proverbs.**

A good painter need not give a name to his picture, a bad one must.

Interesting how Jewish degenerate art, which has “progressed” its way into our daily, “modern” art, always requires a god damn name or label. You have seen it before, all those idiots standing in front of a canvas with one single color and nothing else on it; I mean how much must your IQ drop to actually stand in front of such crap with amazement – or even start to wonder and imagine what this single color should represent. Then you compare it to the name/label and start to come up with explanations and possible hidden meanings behind this one god damn color – the Jew who drew it might even come to like one of your meanings and sell it as such. Sick, degenerate art – nothing but Chaos – I even saw once a piece of work where the canvas had only white color on it with the word “art”. I mean – come on. Get the fuck out of here!

Each country has its own tradition.

Why, those god damn European Pagans – who are they to talk about countries and traditions? What exactly is tradition anyways – the transmission of customs or beliefs from

generation to generation, or the fact of being passed on in this way. A long-established custom or belief that has been passed on in this way.

**What are we going to pass on to the next generation?** Multi-culturalism? Diversity? How are those long-established customs? As a matter of fact – our own Race itself – is a long-established tradition that has been passed on generation to generation – if we go extinct, there is nothing that we will pass on. There is Natural hierarchy in everything – we find it in logic and truth as well. If the White Race doesn't exist anymore, the whole idea of Tradition and passing on itself doesn't exist either. If the White Race is gone, whatever is left of us in terms of technology, books, movies – whatever – and stolen by non-Whites – is not tradition anymore. They can only continue a Lie and say that they made all that stuff. The same way Blacks today, brainwashed by Jews, are trying to sell us the idea that they invented everything, that they were the Egyptians, that god damn Beethoven was a Black man – and so on. Lunacy. Idiocy.

In general, Jews have managed to destroy our Sense and Perception of “Country”, that is to say Nation, therefore we feel no obligation to advance or keep any Traditions. Without tradition, there is no country; without country there is no living space for our People; **without a living space, we cease to exist.**

The greatest oaks have been little acorns.

Ah, such refreshing simplicity! Notice how all these sayings are direct, simple, natural. No hidden bullshit, no intentional speaking in parables – simple Wisdom expressed in the most basic way. But, there is great symbolism in this saying – as the little acorn finally begins to grow – it also Roots itself. A reason why our People accepted the Tree as a symbol of their own racial Organism as well – **the people are rooted to the land.**

Wherever you go, you can't get rid of yourself.

Has both a positive and negative meaning attached to it. Wherever the White man has gone he has created civilization, brought light to the world and advanced the other races into the future. Wherever the Jew however goes we find Chaos, Destruction, Death, Lies, Usury – the Jew can't get rid of himself. In modern days – this saying would actually be considered racist. Or, I can already see this application of it: A White man can't get rid of being White – what a privileged racist nazi scum that White man is.

Where two people fight against each other, the third one wins.

**The Jewish art of War, right?** Them being the 3rd person, of course. There has yet to be a war in which god damn Jews are directly involved – even when they declared war on Germany, they had the rest of the World attack them while drinking cocktails in other Nations.

Keep learning because knowledge is the key to might.

I wonder who is currently winning the knowledge-war in our struggle and fight? I also wonder why there are so many supposed “pro-white” characters who think that spreading knowledge about the Truth is simply a waste of time – in other cases they would even suggest that we have to “out-jew the jew”; but I guess when it comes to countering the Jewish propaganda – then we simply shouldn’t try to stop the Jew – let them brainwash our people.

When two are doing the same, it isn’t the same.

The more you read, the more you realize why the Jews have to literally annihilate our Race in order to accomplish their plan. Since our inception, we were the total opposite force of them.

The bird is known by its flight.

Reminds me of another one: You can take a lion out of the jungle, but you can’t take the jungle out the a lion. Very similar in its meaning. **What is the flight of the White race?** This is something we should be asking ourselves more – What is the sound of the White race? How do we walk? How do we laugh? How do we look like? We basically have to re-educate our own People and make them interested into their own kind again – we have fucking people going to the most dangerous areas of the planet to see an animal or plant – but they refuse to see the beauty of their own people. **We even made Humans god damn fly.**

Good brotherhood is the best wealth.

Indeed it is. All my life I have been going around trying to find a group of people that will work together, protect each other, love one another, help each other – I tried relentlessly and have been disappointed every single time. The quality of people I would manage to find was simply not good enough. They had been Jewed so much by all the brainwashing, that they could practically pass as Jews. The White race is not allowed to have any kind of “brotherhood” – they ban it instantly. Paganism, as the Christians love to call it, was basically a Brotherhood – it was based on Natural Science and our People. Christianity killed this and replaced it with a Jew. How wonderful.

It's better to see once than hear a hundred times.

Oh, it sure is. Sometimes, once is all it takes. At least it should be that way. But we have modern leftist liberals who literally get raped by the non-white invasion and still pretend everything is alright. They even feel guilty for it – these brainwashed zombies actually believe that the invaders are raping them because of some micro-aggression or whatever the fuck they call these modern terms. They believe that this rape is somehow a pay-off for something we have done to them before – ironically – all these invaders are Muslim.

Surprisingly, all these leftist liberals seem not to know that Muslims have been invading Europe for over 1400 years and have killed millions; raped millions; enslaved millions. Sometimes I attempt to walk into the minds of these zombies – and I must admit – I have to escape that projection very fast because I feel as if I am losing my mind. It must be horrible within their head; or perhaps they don't even have a working brain anymore – who knows. Interestingly enough, Christians also feel guilty since birth and believe they have to suffer all life – **do I see some kind of Jewish pattern here?**

It's not Gods who make pots.

Yes, yes and yes. So much Intelligence in this sentence. Just think about it for a moment – all the technology we have, all the things we have done, developed, invented – it wasn't a God who made it happen – it was Us. This is highly important when you compare, for example, the White race to the Black race. You can't say anymore – “we are all made in God's image”. This is also why the European, pre-Christian spirit was attempting to “prove itself” to God by becoming God-like. We didn't fall on our knees and begged for mercy or salvation. Our ancestors and Gods wanted us to become Worthy – True – Honorable. This was our way of understanding the world. The semitic idiocy is all about Fearing God and Submitting to him entirely.

This saying also gives you the knowledge that the gods themselves have no direct influence on this realm – there is no one coming to save you. It is you who has to save yourself – it is us who have to save our people. There is another saying that goes like this: God keeps safe those who keep themselves safe. In other words, if we are to believe in a powerful Spiritual being – then it can just and only help you as well – if you yourself become a powerful Spiritual being. **Christians are told to be weak in spirit; how the meek will inherit the Earth.** Sure, sure.

A soldier who doesn't dream of becoming a general is a bad one.

Our race had dreams once upon a time. We dreamed of a better life, of reaching the stars, of acquiring knowledge and wisdom – of unlocking the Universe. Hell, we even dreamed of

becoming Gods. All those ambitions and dreams were shattered to dust – we even have Blacks saying now that going to Mars is a racist thing for Whitey to do. We can't dream of something better because we would destroy the "liberty, equality, fraternity" ideology of the Jew – well, you damn evil racist White nazi scum – how can you dream of becoming better and better when you are supposed to be equal and tolerant? Everything the Jew has brought with him has killed our Spirit – the Spirit of Creativity. If anything can be defined as "God", then it is Creativity. **And, as Jews have said – they will kill God.** Not every soldier will become a general – that is fact – but a good general can make every soldier feel like one.

The devil boasted of ruling the whole world, but God didn't give him power over the pig.

Isn't it Jews, Muslims – and Christians, even though they ignore it, that is to say they ignore everything within the Bible – **who are afraid of the pig?** Are we to understand that Yahweh and his followers are the devil? Oh my god – what did those evil European Pagans say? And the final saying :

United we stand, divided we fall.

Probably the best message for our current situation. Not only have we been divided through Christianity, but also through all other Jewish poisons such as – feminism, liberalism, communism, bolshevism, transgenderism, etc. – they keep dividing us on every possible level of existence. Can you even begin to understand how much they are afraid of us? Can you even begin to understand how powerful we actually are? Look at all the shit the Jew has to bring about in order to destroy us – all the non-White invaders; all the ideologies, religions, mindsets, moralities – 2000 years in a row he is attempting to completely annihilate us and brainwash.

And all it takes is one single moment of Universal Truth to ruin it all. Can you even begin to imagine how much the Jew is afraid of us? This should be your daily morale boost – understand the Fear that runs through the veins of the Jew. **What we need to do is make him experience that Fear and create a domino-effect of Jewish failure.**

## Wisdom of our People #2

April 11, 2016 Axe of Perun

The Slavic proverbs were pretty refreshing – let us continue now with some Roman ones. There are of course many Roman philosophers we could specifically go through – but in general these are accepted as “common” sayings. Some Roman speakers were very prominent anti-Semites, speaking of Jews as lying lunatics who are a totally different race – loving everything we hate and vice versa. It is always interesting to see that throughout history, “anti-semitism” had been a continuous relationship of intelligent people towards Jews.

Fear the man of one book

This one is simply beautiful; in many ways. **First and foremost it counters all the Abrahamic religions and people – they are “people of one book”** – who try to define absolutely everything through it. Alas, Christians are a unique species of Abrahamic followers – they rarely actually follow what is written in their book – sometimes I wonder why they actually even label themselves as such. Fear? Are they so afraid of the Jewish fairytale that they simply want to be associated with it – “just in case”? They basically don’t do anything it says in there – at least not directly. Strangely enough, everything that we hate in modern Society has its roots in the Bible – especially in the words of Jesus – yet no Christian every reacts on it. I won’t go into details now, but anyone who has done any kind of deeper research of this Jewish book knows exactly what I am talking about.

The man of one book is also anyone who thinks/believes he has found the Truth within one single book. In general, these people automatically become “religious” and create some kind of organized society around it. There are even scientists of that character – but, those are not as “dangerous” as the Semitic “believers”. A person should read, learn, study and experience as many things as possible. One book is the complete opposite of it. Having a thought about something and being able to let it go is wisdom – it must have a conclusion or end. The people of one book usually don’t have such a quality – they are “awaiting something”, such as the “return of the Messiah”.

Also, these people are highly dangerous – once they base everything in their life upon one artificial element, they reach a level of toxicity where they are willing to kill for the continuation of that element. **You see, they have sacrificed their own personal growth, and life basically, so that this element might become alive.** Therefore they protect it with their own living essence. You cannot Reason with such a Person anymore – it talks, walks, thinks and reacts only as this element – in religious cases, “the book” – anything outside of this book is simply “not true”.

The greater the degeneration of the Republic, the more of its laws.

Something we are all aware of as the West is falling apart. Soon enough we won’t be able to talk about anything anymore. You are now being tracked on every social media that exists – people are being imprisoned for having “hateful thoughts” about immigration on Facebook. You can’t use cultural symbolism – such as the Confederate Flag. You can’t express yourself as a White person – you can’t even be anti-semitic. The thing is that the more degenerate a Society becomes, the more Laws are required to make that Degeneracy somehow work among the still remaining Sane people. Eventually, this degeneracy will win against the Sanity because the amount of Laws it has created are never against it – they are always against the Healthy, Sane people.

**Every modern Law that has been created is protecting Degeneracy** and trying to find a way to work around the Normal people – little by little – until the Normal people finally realize that they are unable to speak out against Degeneracy. The same way Anti-Semitism as a defensive mechanism came to power. Every time a certain type of Degeneracy is rising in its Power, it creates some kind of code-word that is supposed to counter its opposition. Sexist, Racist, Anti-Semite, Homophobe, Islamophobe, Xenophobe. It never ends.

When the head is sick, the whole body is sick.

Wonderful and simple, isn’t it? I often told people that all these Jewish parasitic ideologies are like a poisonous snake bite. For example, it bites your hand – you now have the option

of immediately applying an anti-dote or cutting off the hand. If you do neither, the poison starts spreading. Once it reaches your brain – it is over. This is true for all these brainwashed feminists and liberals – as long as they aren't completely gone – you can “take them by the hand” – and try to reason with them. But, once the poison hits their brain functions – it is pretty much over. Only the worst type of shock will finally wake them up; and not everyone is able to return to Sanity afterwards. **There is a reason why we define some people as simply “broken”.**

When the head is sick, especially under the influence of a Jewish thought-pattern, the body is also sick as it will follow this thought. You have seen this in these modern progressive zombies. Everything they do is basically degenerate. And more often than not – they don't really have a stance – they simply have “opinions” without any real foundation. This is why all the conversations with these people are about how you “offend them” with your statement – you will never reach a final point of the conversation – and how could you – they are sick in the head.

Whom God will destroy, he first make mad.

Jews are mad, alright. They are literally born mad with the highest degree of schizophrenia and sicknesses associated to mental disorders. Not only that, but one has only to read the Bible or the Talmud to get a glimpse of what the Nature of a Jew is. All the Lies they make, all the Degeneracy they cause – they are literally mad. Hell, they even call themselves the Chosen People of God. And, with all the proof and information we have about this Parasitic Race – we still let them walk around freely among our own People and Nations. Perhaps we are more mad than the Jews in that regard. Alas, God/Gods don't influence our realm directly – therefore – even if he really “made them mad” – **it is up to us** to identify them as such and kick them out of our Societies. They are a curse upon our Nations.

Divide and conquer.

Old, but gold. Simple and effective. Jews applied this proverb to perfection – haven't they? Everything is divided – our politics are not even concerned with the People or the Nation – we have a left and right political system that battles about ideologies instead of the good of the People. Our culture and faith have been divided – Slavs, for example, as a group have been divided by Christianity. Many of our European traditions were genocided. Everything is now about “political correctness” and in all this division – Jews are always that small minority that simply tips one side to their favor.

You'll understand this probably the best through politics. Jews attempt to make these opposite sides always hang around the 50%-50% mark. Then they literally sell their votes to one side – their power, influence, media, money – and control this side from that moment on. They would not be able to do this if the Nation was working exclusively for its own People – Jews wouldn't even have a say in anything as they wouldn't be regarded as the Nation's People. Divide and conquer. Split and weaken.

Gifts of enemies are no gifts.

Once upon a time we were disciplined and honorable. **Today, we are so tolerant that we haven't learned a damn thing from the Trojan horse story.** We are told that non-White invaders are a gift upon our Nations – they bring “diversity and culture”; they will “improve the economy”; or as the Pope would put it “their seed will enrich Europe”. We understood once that there are People out there who only wish to see us dead and bring upon us destruction – today – we are blinded by Love, Tolerance, Apathy and the Lie of Diversity.

Necessity is the mother of invention.

A very simple Truth – usually working exclusively through the Unity of the Woman and Man. This is also empowered by the Spirit of a Race and its ability to make a habit out of it – to become excellent in it – to become Creative. **As long as this Creativity is guided by a Natural Law and Truth – it is Godly** – however, overtaken by the Jewish parasitic thought – it can become the Destroyer of the World.

It is interesting how Whites came to Africa and other regions and found people living in the Stone Age, in some areas having no Fire or Wheel – what happened to these people? Why didn't they invent anything? How come they didn't see the necessity for it? One simple answer is – they are primitive. Today we know that they have a low IQ and lower mental capabilities. In our modern progressive times, the White race has somehow become the reason why these people have remained so underdeveloped. Imagine coming to an Alien planet where everyone is living in the Stone Age and the Aliens tell you – it is your Fault why we are in the Stone Age! Because this is what Blacks are trying to tell us today – of course, being fed this idea by the Jewish propaganda.

Remember that you are going to die.

A very important piece of Knowledge. In some cases the skull and bones symbolism was referring to this Knowledge – it has since then been perverted by Jews and their Shabbos Goy. New Age mantra is completely ignoring this information – they are all about “living in the Now” – ironically this is something Jesus was telling his followers as well; ignore tomorrow, don't worry about food, God's going to take care of everything.

But, when you remember that you are going to die, you have to take care of not only yourself, but also of your family – of your friends – of your People. You must leave something behind that will ensure the continuation and safety of your People. **Today, we have lost this Knowledge** – we are all living for the Moment, Entertainment, Happiness – Selfish, Egoistic, Degenerate. Why worry about this life when you will have “eternal life in

heaven”? Why worry about your Earthly possessions? Give everything up – sell it all! Yes, those are the Jewish whispers in your Ears.

We are not born for ourselves alone.

Another important Lesson. Today it is all about You, you, you – we got everything for You – for Your best experience – for Your convenience; bla bla bla. And I am not saying that “you” shouldn’t be important – but the “you” does not exist without the “us”. It is an interesting process, the development of the Humanoid form of our Race and Spirit – in order to have the Individual we first must have the Organism (Nation). In order for this Nation to keep on existing, there must be Individuals who are willing to sacrifice this Individuality in order to Preserve the Nation. We must never forget why we are so Free – and why we managed to develop ourselves so much – the God-like individual is the result of a Free People – **to have a Free People one must ensure its Freedom**. And we have given up on our Freedom – blinded by the Jewish manipulation.

We learn not for school, but for life.

Yet another thing the Jewish influence has corrupted – Education. It is all about passing tests, exams, making up stupid seminars. Everything is about passing that piece of paper – getting that validation from a teacher – and once this becomes more important than Knowledge itself – you have corruption, laziness – as a natural consequence. In my student days, I couldn’t believe the amount of people who were bribing, cheating and lying. I couldn’t believe the amount of stupidity and ignorance of teachers – absolutely no healthy or sane conversation was to be held with them; whenever I stumbled upon something stupid I wouldn’t waste my time with it – one Female teacher was a Feminist and tried to make my life hell. It is all about propaganda, opinions – rarely about Knowledge and Wisdom.

Therefore, we do not learn for Life anymore – we learn for School. And today they are promoting that “School never ends”, “Education never ends” – you are going to be a lifelong student of the System. Keep following their guidelines, their rules and you’ll be fine. School has been corrupted and therefore it doesn’t represent knowledge about Life anymore.

As long as there is life, there is hope.

The White race still exists, its Organism is still alive – therefore there is Hope that we will heal it and fix it. If only more of us were understanding the situation we are in. This is where we come in – we must make them see the Truth. The real Truth. We can’t play the

Jewish game and hope to somehow win inside of it – **only a fool plays by the rules of his enemy.**

Authority, not truth, makes law. Like king, like people.

Might sound sad to some, but it still is right – **Truth in itself is the highest guiding principle one can live by** – but in the end – if that Truth is not Projected through proper authority, it won't live up to its potential. Authority doesn't have to be a single person – it can also be the quality of a Message – and our Message is the Truth – it just doesn't have enough Power behind it yet. But, in the end the People will follow Truth – we only need to attach Natural aspects to it – the inner Spirit of our People will be drawn towards it.

Hierarchy therefore is important; it is Natural. We know it. The Jews also know it. This is why the Jews have taken over all of the major positions of pretty much everything. They are the authority – this is also why they created the European Union – they control it. They very well understand the meaning behind Authority – it is just that they assume it in such a way that no one is actually targeting them – but others.

With them controlling the Authority also came their power of Propaganda, so that the People will not see their Authority as the Enemy – they will see those who are trying to return the Nation to Sanity, Truth, Nature and Law – as the Enemy. In other words – they see the ethnic, true Nationalists as the Enemy, while the infiltrator Jew is the “Ally”. It is a sick world that we live in. Like king, like people – we have degenerate parasites and viruses as our leaders – therefore the masses are becoming degenerate as well.

A leopard won't change its spots.

This applies to everything we know about Jews, Blacks, Arabs – etc., but Jews in particular. Kicked out of our Nations over 109 times, caused problems wherever they were; civilizations and cultures were genocided wherever they showed up; people were anti-semites for over 3000 years – yet this Race has never changed. And they never will. They Lie every time they take a breath. **And they took a lot of breaths while writing the Bible.**

## Wisdom of our People #3

April 13, 2016 Axe of Perun

I must say, I am not sure which ones were better – the Slavic or the Roman ones – both are full of Wisdom which we could apply and use in these darkest of times. Some of them even make you think “**damn, have we really become this stupid?**”. We are passing on less and less Knowledge and Wisdom, which in itself is the result of Degeneracy. The Jew is attempting to make us completely forget everything about ourselves and when that moment of complete amnesia happens – it will be over.

No one is going to preserve us if we do not ensure our own continued existence. No one and nothing is coming to save us or help us. Countless animal species have gone extinct – no God showed up to say “why, I can’t have one of my creations just simply go extinct, I shall save them”. The White race is a unique expression of Nature – gifted in many ways – and it is up to us to show the World and whatever godly entity you wish to point to, that we can endure everything – even Time. Now, let us look at a couple of druidic/gaulic proverbs.

To defeat the enemy, is to know the enemy.

We heard this many times before, in various other forms as well – but, it still remains the Truth. You don’t “love your enemy” as the Jew Jesus might tell you – you must Know your enemy. Currently, the **West is really “loving” its Enemies** – in all its various forms – we are embracing every type of degenerate idiocy; tolerating it, accepting it, kneeling before it. What, you are a Jew that wishes to enslave us? We love you. Who are you? A Muslim that wishes to kill all non-believers? Come on in, we love you too. And, you – who might you

be? Oh, you want to kill Whitey? No problem, come on in, have a free gun and ammunition. **We love you all.**

Another important point of this proverb is that we won't win against the Jew if we don't point him out. We can't defeat the Jew, if we do not know the Jew. What are our people supposed to fight against – the air? This is why all these infiltrators of the White movement are now suggesting to never mention the Jew – never mention him – simply play alongside his game and hope to somehow win against all the odds. As I have said in the last article – only a fool plays by the rules of his enemy. Therefore, we must educate our People about the Jew in order to even have the slightest of chance to win against him.

**The people, the masses, do not know anything about the Jew.** That is a fact. They have been brainwashed and their memory has been erased. We have Putin in Russia surrounded by Jews; his daughter married a Jew, banning Nationalists, banning Mein Kampf, banning Holocaust denial – the list goes on and on – and people still think he is on “our side”. We got Trump working with Jews all his life, his advisers are Jews, his kids married into Jews – and so on – yet, people still think he is on “our side”. Just the fact that these 2 people exist and are supported by Whites, even those who are supposedly “Jew-wise”, is enough evidence that our people do not know their enemy – and therefore we can't defeat this enemy.

Peace is not the absence of conflict, but the ability to cope with it.

The Jew is trying to sell the world the idea that once White people are gone – there won't be any conflict. You have seen this mantra everywhere, but it couldn't be more wrong. **We are currently holding the balance on this planet** – imagine if Whites ceased to exist tomorrow – China would trample over the Blacks and Mexicans in North America. India would be in a war against Islam. Blacks would again be massively enslaved by Arabs in Africa. Japan would find itself in a never ending war between China and Chinese Australia. The world would be in complete and utter Chaos. We are literally the only thing that is preventing the rest of the world from constantly killing each other.

We came to Africa – all they did was hunt each other down. We came to America – all they did was hunt each other down, sacrifice their own people to Gods. We came to Australia – they reached the first level of technology – a wooden stick. People have been so brainwashed and know absolutely nothing about history and facts – China had no industry, no railroads – all up to the 1930's. Can you even imagine that? Blacks didn't have the Wheel in certain areas to the late 1800's, in some areas they didn't even have Fire. Can you imagine that?

Nevertheless, Peace does not have to be “War” as Orwell put it, but it can’t be, it must not be, a state of complete apathy and phlegmatism. Competition is a Sin, said the Jews, and they look at the Races of the World and see competition. They look at the White Race and see competition. With us gone, they will have their Peace – the Pax Judaica.

But, this saying also shows you that you can’t have a free Nation without protecting its freedom. Our current state of Mind and Spirit is so corrupt that we cannot cope with conflict – we have been poisoned by the Jew to simply tolerate conflict and to accept living alongside it – and therefore we have no Peace. We have no Freedom anymore. You can get killed by a non-White around every corner. You can get blown up by a random Muslim in every major city – there are over 50 million of them in Europe. You can’t speak against Jews without suffering consequences. **We are not Free; we do not have Peace.**

One goes to Knowledge, as one goes to War.

Oh, I hardly doubt our People are doing this – whenever you attempt to tell something to someone they are absolutely out of touch with reality. No discipline in logic or thinking. No critical thinking or understanding. They don’t look for a point, don’t look for a direct hit; neither do they really wish to Know – all they look for in Knowledge today is “trendy” stuff; or how well certain information will sell itself. They do not seek to grow mentally, just as a soldier would seek to grow physically. They do not seek to be ready for Life, just as a soldier seeks to be ready for Death. They do not seek to sacrifice their Ego, just as a soldier is ready to sacrifice himself. They don’t even search for Knowledge without Fear. **The average zombie nowadays is afraid of Knowledge.** Knowledge is a battle – Wisdom is the reward of Victory.

Where there is not imagination, there is no fear.

In other words – fuck you, Jew Einstein. You can control people by creating a false sense of Fear within them. You tell them about Hell and Heaven. You tell them about Weapons of Mass destruction. You constantly remind them of terrorism. Everything the Jew does is about Fear – he cannot control the masses if they are not afraid. This is why every single News station they control is just and only showing you one disaster after the other, with some Sex and Entertainment here and there.

They got you living in the lowest possible frequencies of life. They want you to imagine everything, rather than experience it. This is why there are hundreds of horror movies out there – filled with scenes of the uttermost disgusting thing you can imagine – they are forcing your mind and soul to not engage in anything, because it now “knows” what “could” happen. It can imagine the horror it could go through, were it ever to speak out against something. They do not control you directly with Fear – no – they want your own Imagination to do it for them.

**This is not to be confused with the idea of Creativity.** I already see those of you who will say – but how can we invent stuff if we don't imagine it – remember, Necessity is the mother of Invention. We invent stuff because we need it; we get to need it because we develop and grow; we grow and develop because we made a habit of excellency – we are excellent because we wish to know and understand. Imagination is very close to Belief – and we all know where that can lead to eventually – Abrahamic religions.

The power which can destroy a thing, can also be used to preserve it as well.

Yes, indeed. We could say that currently the “power” of the West is used by Jews to destroy everything that is normal. But, in the hands of true Aryans, White Europeans, this power could be used to bring about a new Age upon not only our Nations, but the planet in whole. In general, you can extrapolate this proverb as this – Power is gained through Knowledge. Knowledge can be used for Good and Evil. Using Knowledge for Evil is an intent – every time you use knowledge to intentionally harm someone – that is Evil. Therefore, Knowledge can be used to preserve something or to destroy something. This is why I usually tell people – with Knowledge comes Responsibility.

Goodness revolves around the preservation of Knowledge and Culture.

Those damn evil, racist, nazi European “pagans”. The sad thing actually is that I have no idea how we could implement this proverb back into the Minds of our People. It is impossible for the modern progressive zombie to accept this as Truth. How are we preserving our Culture if we are making a “multi-culture” environment? How are we preserving our Knowledge if we are cheering on the genocide of our own Race? **What a strange battlefield we have been summoned upon** – having to deal with Zombies and Traitors, alongside with Enemies.

Anger is justified, only when it seeks to prevent the repetition of an injustice.

Well, I'll be damned – aren't we trying to prevent this Jewish repetition of Death and Destruction? Are we not trying to tell people – look! – they have been doing the same shit for the last 3000+ years – it is enough! They have destroyed and killed so many things and they will do it again! We are angry – we literally hate them because they don't deserve any less. Anger is justified. Even Hatred is justified.

Once one recognizes the truth, one is then bound by its laws.

Makes you smile, doesn't it? When you read such wisdom of our Ancestors it makes you feel good – because you realize that you have continued their essence – that you are part of it. Once you unlock this connection to the Spirit you start to receive information of the collective Volk memory – the same way once you recognize Truth, you can't ignore it.

Every single one of us, who is aware of the Jew, cannot ignore him – not a single day goes by without us fighting against White genocide – pointing it out to people – educating them about it.

But this also refers to our scientific spirit. Every time we learn something new that fundamentally changes our perspective on life – we are bound by its laws – it becomes the new Truth. This was our Faith in many aspects. We didn't say – look – we know it all, we got this one book here. We were not like the Semitic idiots. We changed our Life as we developed. This proverb is experienced, for example, when you learn how to swim.

All Music, or natural melody, is but a faint and unbroken echo of the Creative Mind.

Good thing that they pointed out natural melody – I hardly doubt Black rappers are part of the Creative Mind. Assume therefore that there exists an unbroken echo of the Creative Mind – each Race is then a certain radio station that is capable of tuning in to this Echo. We can now easily understand that the White Race is the most in tune with it. Our Music, Art, Literature, Architecture **makes you stand back in amazement** and wonder if a Human was really capable of doing such a thing. Meanwhile, Africans are licking the butts of Cows and Hindus are putting Cow piss on their face as a blessing.

The seeds of our destiny are nurtured by the roots of our past.

What will the destiny of our seed, that is to say the next generation of our people, be like? Have we nurtured the roots of our past? What past will this next generation have? A past full of propaganda about diversity, equality, freedom, “peace”, multi-culturalism, white genocide, white hatred, white guilt? What are the seeds of our destiny based upon such a past? No wonder we have high suicide rates and even people who do not wish to bring children into this world anymore – with no past, and a chaotic present they see no future – they see no destiny. We must change this.

**We must take control over our own Past again** – we must return that which was Sacred – we must ensure that our Children can be Proud of their Roots. Our roots lie not within the Jewish Bible; within Feminism; Communism; Bolshevism; Islam; Multi-culturalism – those are all alien invasive forces that wanted to destroy the roots of our past and therefore the seeds of our destiny.

True Magic is “The Art and Science of changing states of mind at will”.

This is something we have to work on more. Symbolism plays a huge part of this as the Mind works far better with symbols and sounds, rather than words and even logic in some cases. There is also another important point here – thought is required to decipher words

and logic – and thought can be interrupted or corrupted through Jewish influence. A symbol, like the Swastika, cannot be destroyed – alas – it can be banned. Therefore, part of our Awakening and Education of the Masses should be working on this subject of “True Magic”. And one last and simple, yet powerful, proverb :

The Truth against the world.

## Wisdom of our People #4

April 14, 2016 Axe of Perun

Time for some Nordic proverbs. They are sharper and more direct, and perhaps carry with them an attitude which we should be expressing ourselves as well today. Well, especially Sweden should, because holy shit – what is happening to Sweden just breaks my heart. They are literally occupied, there just isn't any other word for it. Having no-go zones within your own Nation is just retarded. Sweden has literal sicknesses preventing access to certain areas of its Organism (Nation) – at a certain point they will prevent either Blood or Oxygen transfer – and Sweden will be gone.

It is always interesting to see how Jews are leading the occupation. There is that hag Barbara Spectre and that other Jewess who is “teaching” Swedes that Sweden never existed – never in recorded history did something like a “Swede” exist, she says. **I guess those Nordic people have just been an illusion for the past 40,000 years.** A fata morgana of beautiful blonde women with huge breasts. Why, we can't have liberty, equality, fraternity with Swedish women being so beautiful – how can the rest of the world catch up to them? We must simply kill them all and be finally equal and liberated! But, let us now go into the proverbs :

Merely book makes none wise.

I love how Europeans in general had this understanding that a book doesn't make you wise – that is to say, it doesn't give you ultimate Knowledge or even Spirituality for that matter. No wonder they had to “spread Christianity” with blood and death. Such a lovely

thing, isn't it? Such a blessing upon our People that tens of millions simply dropped dead in front of it – yeah, right. It spread the same way Islam is now spreading, which might be a revelation for some Christians. First it pretends to be tolerant and slowly grows in numbers. Then it starts to demand equal rights and parts of the power. Finally it eliminates its opposition.

Anyways, a book doesn't make you wise because wisdom in general has to come with certain experience. There are, of course, symbolic pieces of Knowledge which you can attain from simple reading – in addition with attempting to “re-live” this symbol or scene inside of you. But you can read 10 books about riding a bicycle – you will still fall when you try riding it for the first time. Sometimes wisdom is defined as what you do and say when there is no time to think. **The more wise you are, therefore, the less stressful and fearful you will be in dangerous and tricky situations.** People “feel” Wisdom in a Person who shows absolutely no fear or emotion to danger – they are not easily intimidated.

You have to learn to crawl before you can walk.

Indeed – ironically in our modern times this doesn't seem to be understood by the general public. We have a growing number of unemployment everywhere because the “human resource” departments are looking for people with 5+ years experience while the population has no working experience. How can they learn to walk without even having crawled? It's all just wrong – we are under such pressure of Time since the Jew has replaced Time with Money, that it makes it impossible for things to naturally develop anymore. Everything has become artificial, fake, stressful.

But, this saying is also kind of a message for our movement. We must make our People first crawl to the information we provide. Jumping into their face with Jews isn't going to work. Pointing out all Problems and making sure they understand that behind every god damn problem is a Jew will make it easier for them to walk the Anti-Semitic path. Because, once you look for the Truth, you simply become Anti-Semitic. Sculptors will tell you that their Sculpture was always in front of them, inside the block of stone they work on – they just had to remove the unnecessary elements of it. **One might therefore even say that everyone is Anti-Semitic, they just haven't figured it out yet.**

He who lives without discipline dies without honour.

I wonder what our ancestors would think about all these modern leftists, fashy faggots, liberal marxists hippies, fat feminists, transgender people – people who are the definition of lacking discipline. Would they even attempt to fix them? I am not so sure. They would

probably exile them and make them understand how little of worth they are without the Society – the Society they have come to hate. In the wilderness, among Strangers, they would die within weeks. Because, in a certain way, the Life of these Zombies has no other Purpose but to attempt to destroy the Society which has given them Life.

Once you kick them out – they are dead as well. Jews are the same practically – if we were to kick out all Jews tomorrow and send them into one place – I am pretty sure that they would go extinct on their own within a decade or two. **If everyone were to become Nationalistic again and drop the Bible, Jews would have nothing, absolutely nothing, no-thing, to offer to the rest of the World.** They would return to Cannibalism as is written in their Bible.

Discipline brings not only honor and power, it also brings excellency to everything you do. Disciplined people take care of details, want to see things run smoothly and properly and are ready for action when the time for it comes. There are certain people who are disciplined in taking action, but haven't grown by the same quality in Wisdom and Knowledge – they want things to get done right now without thinking stuff through – and eventually this can lead to the failure of a project. Therefore, it is very important to have Discipline in the Physical realm of things, as well as in the Mental and Spiritual. Such a person basically reaches god-like attributes. But I must be making things up because Jesus said the “weak in spirit” are great and the “meek” will inherit the Earth.

Better it is to die in battle with honor, than to live in shame because you did not defend your people.

**Those evil, racist, nazi Europeans – willing to die for their own people, defending their Women and Children!** I wonder if such a proverb would even reach a single brain cell of the progressive zombies we have going around within our Nations. They probably don't understand the “defend your people” part; and I bet that they mostly don't understand the “your” part. The Jews and non-White invaders are killing and raping our Children and Women every single day – and nothing is being done about it. We are supposed to simply accept that these certain people have to die, something like a “sacrifice” in order for “true diversity and multi-culturalism” to succeed. What a bunch of horseshit.

What would the Jew Jesus say in these cases? Ah, yes – he would say that: *He who loves his life loses it.* Well, if your sister gets raped, tortured and burned to death by a Muslim, it probably means that she loved her life more than Jesus, so she had to lose it. She sure suffered enough and according to the Bible is now in Heaven – isn't that nice? Such a nice religion and faith, it makes sense on so many levels – why I almost converted myself now.

Better to fight and fall than to live without hope.

I assume the realization of this proverb is coming soon. There will soon come a time when almost no hope will remain – you won't be able to speak and say what you want; you won't be able to walk within your own Nation freely; you won't be allowed to have Emotions towards your own People; you might as well get micro-chipped by force; they will probably even simply announce the disbanding of all Nations – force your children to race-mix and who knows what else. And when that moment comes, that crucial silence of despair, you will find no purpose in anything else but in battle. **Do we have to reach this extreme level of hopelessness?** Is it really necessary to finally wake us properly up? When have we stopped to appreciate the fact that we can predict and prevent bad things?

It is the darkest before dawn.

A hopeful scenario to balance things out with the last one. Oh, how I wish that this dawn will be brought about by our Generation – by us. Let this darkness come within our time so that our children may live free again. I can give you some enlightening words here: you are already dead and fucked up. All of us mostly are. None of us is really completely healthy and none of us will ever be. You know it, I know it – you feel it. You know that there still remain certain Jewish influences upon your thoughts, desires, emotions – it is almost impossible to completely heal from their manipulation, indoctrination – but we try, we try as much as we can.

You see, this should give you power – we must sacrifice ourselves so that our Children, so that One generation of White children, can finally live their lives entirely and completely free from any type of Jewish poisoning – so that they may then excel in everything that we have failed at – even life itself. It is like having a deadly disease which you can't really heal and you know you will die from it – why not charge at the Jew and cause Fear among his ranks? Make your very last move the most honorable one.

Only dead fish follow the stream.

**Warms the heart, doesn't it? Congratulations, my friends, you are not dead.** I love how we can adjust this proverb to our modern times with just one addition: main-stream. Well, we could also replace the dead fish with retarded zombies. Such a profound truth. There will be, of course, those who will say that if we were to win, wouldn't we also become the "main-stream"? Wouldn't that mean that no one should then be like us? You have to understand that we aren't attempting to create a stream; no one can really live within a stream or a main-stream. We are attempting to create a Lake for our People and keep it Clean and Healthy. We are attempting to create a Wood for our Animals, a homeland where they won't have to follow anything, but simply be what they are – naturally. Alive.

There seldom is a single wave.

Indeed, those "refugees" sure are coming in more than one wave. They are also coming from all parts of the World. Somehow when a supposed grenade explodes in Syria, 1 million Black Africans seem to be escaping a War-Zone from Ghana. Who knows what type of grenade we are talking about here – perhaps its area of effect is so huge that

people in Somalia simply start packing things and head towards Europe. Interestingly enough, all “refugees” are also Muslims – they also never come in a single wave – their waves lasted over 1400 years.

You don’t have to put out the fire when all is ash.

The ancestral way of saying – **you should have listened**. Now it is happening and it is too late. You should have reacted when the first Muslim raped a white girl. You should have reacted when you learned about Jews controlling all the Media, Politics, Banks, Hollywood. You should have reacted once you learned about the millions of contradictions within the Bible. You should have reacted once you learned that Jews want to rule the whole planet and kill all White people. You should have reacted when you discovered the never-ending White Genocide in South Africa.

It is the still and silent sea that drowns a man.

This one is absolutely brilliant. In our case it means that as long as we battle the wave, or even better ride the wave, we will not drown – we will not lose – there will be hope as long as we can roar and move around. Aren’t those Zombies still and silent when not being confronted? Don’t they attempt to silence you and stop you when you confront them? They literally attempt to push you as far as possible into the sea so that your voice can’t be heard, so that moving properly becomes impossible – and once there – you die.

The Jew does this with his indoctrination and massive hypnosis – he attempts to push you as deep as possible into the sea so that you will never again be able to walk or talk properly; to breathe fresh air; he wants you to slowly drown. However, you even could replace the “sea” with Mind – the Minds of these leftists are still and silent – nothing is really working there anymore. They are drowning within their own sick Mind.

Bare is the back of a brotherless man.

We all feel this, this emptiness, loneliness. Well, it does depend on the area where you live – the type of indoctrinated people you are surrounded with. But in most cases, many of us find ourselves playing the lone wolf role. They really managed to destroy our sense of Brotherhood, didn’t they? Hundreds of methods created just and only to divide our people, their sense of ethnicity and race, for hundreds of years. Sometimes you just have to take a moment to realize how deep and profound their hatred towards us is; you just have to grasp all the shit they have done to us to destroy us; and we can ruin it all just by simply waking up our People and Uniting as Brothers and Sisters against them.

One single moment of Universal Truth is all we need. They have to maintain their narrative, we have to simply drop it. Of course, the currently awakened ones have to

produce a counter-narrative, but the point is that every single one of us woke up in one single moment, one single instance and it completely destroyed their 3000+ year old plan. **One second for 3000 years.**

Fear the reckoning of those you have wronged.

Oh, they fear it alright. They know they have lied way too much; destroyed and genocided way too much; killed and corrupted way too many; raped, enslaved and murdered way too many; they know that there is no turning back now. They must entirely destroy us to finally feel safe again – because we have justified reason to unleash a type of reckoning the world has not yet seen. **The word “wronged” doesn’t even begin to describe what they have done to us over the years.**

## Wisdom of our People #5

April 16, 2016 Axe of Perun

Disclaimer – when I was collecting these proverbs several months ago I had the ones from the 3rd article labeled as “Druidic/Gaul”, which in general can be classified as Celtic. However, there are 2 sub-groups of Celtic: Gaelic for the Celts of Scotland and Ireland – and – Gauls for the Celtic people living in France during Roman times. **So, the proverbs in this article are “Gaelic”**; and they are extremely interesting :

Give back to nature, what nature has given to you.

It is fascinating how our People were in touch with Nature; we still are to this day, but this connection/relationship has changed. It is not the same anymore. Back in the old days we saw it as part of us, therefore if we ruined Nature we’d end up ruining ourselves. As in one article before was said – our people understood that a seed grows to become a tree – but it also roots itself to the soil. So it was with our People, our Race. We are Rooted to Nature and try as we might we can’t escape it – neither can we escape ourselves. But, Nature does not only mean “the earth”, it also includes Natural Laws and the Truth behind them.

Nowadays we see Nature as something to be exclusively taken care of – we mostly feel only guilt towards it. And even though we are also trying to give back to nature, it just isn’t the same anymore – we left our Roots and don’t really understand anymore our place and role in this World. The very idea of Globalism and non-stop Migration goes against the basic Natural principle of being Rooted to the ground as a unique Culture. Had the Jew complete control over the development of Nature, he’d allow one single type of Tree to

exist, one single type of Bird, one single type of Fish, etc. – **and he'd tell that one bird that it is privileged because it can fly, so it should give up that skill.**

In a certain way, Jews are indeed psychopaths as they only feel safe once everything around them looks, feels and thinks the same – they can finally relax – knowing that nothing can surprise them anymore – knowing exactly what those people look like, feel and think about because they control it – knowing that there won't be anything that would challenge their authority because there isn't any creativity anymore.

Yes, folks – **Creativity challenges Authority.** And in a Healthy society these two terms work together, as Creativity changes the Perception of Truth. The mere fact that Jews created One single Authority within their Belief system that is invisible, non-detectable, all-seeing, all-mighty, unchallengeable – proves my point. **They don't want anything to change their Authority and Perception of Reality – they must remain the Chosen people of God destined to rule over everyone else.**

Without knowledge of the past, we shall lose the future.

Incredible how our People were concerned with this. They kept repeating it as if they knew that one day some Jew would show up to bless them with Christianity and destroy, burn and kill everything that relates to the past, so that they might completely change our future according to their Will. And yet here we are, attempting to find knowledge and wisdom of the past – at least what is left of it. We may perhaps never be able to completely rebuild our knowledge of the past, but we just might succeed in stopping this process of amnesia so that we can re-create it in a proper Spirit and hopefully attain a level of Wisdom worthy of our Ancestors.

If we forget or destroy our roots we cannot grow in the future.

I wonder what those modern progressive marxist Zombies have to say about these proverbs? Would their brain cells even comprehend them? How does a cult member of "Diversity" cope with such a sentence? How can you continue to grow apple trees if one day there are no more seeds for apple trees? How can there be anything European if there are no more White European males and females left? What are the roots of a race-mixed person? Nothing.

A race-mixed person is literally a re-set of Humanity. Imagine if tomorrow all pure Races were to vanish from the Earth and alongside them everything they had ever done – what would the race-mixed people have? Nothing. And that is the Jewish point. **This multi-racial and multi-cultural Humanity of the future will have no roots and therefore will**

**have no future either.** They will be Slaves of the most basic mental and emotional functions.

This is also why we are supposed to leave behind a “self-sustaining system” which can be easily controlled – everything is supposed to be easily accessible so that Necessity never arises as a phenomena – because, remember – necessity is the mother of invention. Therefore, only Jews and their remaining mixed Jews of the future, will continue the work on new technologies – all behind the scenes of the fake World.

Be as it may, **the Jews are relentlessly attempting to destroy our roots – they already did with Christianity** – but, are now trying to destroy the new roots we have attempted to grow despite Christianity. They are banning everything that could enlighten our Spirit and are poisoning our People to hate their own Roots. Cut the roots of a plant and it will die.

Rarely is a fight continued when the chief has fallen.

Go for the head of the snake, aye? Jews have done that, but who is our chief now? Do we even have something like a chief? No. There is none. We have literally no leader and therefore our fight against International Jewry has been put to a hold. Just imagine – throughout history, Jews have managed to destroy every single type of Authority among our people – they assassinated when it was necessary, race-mixed where they could, created wars and bankrupted people – it just never ends. Ultimately, they have become the “fake chief”, either directly or behind the scenes – and make sure that the fight is never taken directly to them ever again.

A son is a son until he comes of age; a daughter is a daughter all her life.

**Can you actually believe that this proverb would be deemed as sexist today?** Even worse, what would the transgender cult do with this? Ah, such wisdom destroyed by Jewish manipulation... The natural order of things, the protection of the female as the Source of our People. It also goes to show you that a son is supposed to grow into a self-sufficient man who can take care of himself and his future wife and children; whereas the daughter will always remain the precious diamond of the family.

It also has a lot to do with basic natural relations – the son and father exchange the Power of Will, while the daughter brings Focus and Motivation to the relationship. Women motivate us, at least us Europeans. A family of only Sons will always have a clash of Will and Dominance – but one that also has a daughter gains a bigger Purpose. We see in European women something that is worth preserving and fighting for – they are our “Ouroboros”.

Choose your company before you sit down.

Reminded me of Scott Roberts, when he said : *“You’d have to kill me first, before putting a Yarmulke on my head”*. Good times, good times. Look at the world today – look at the media – look at the political agenda – look at the politicians. Include every traitor you wish here and simply ask yourself: Do these people know what kind of company they hang around? The thing with the term company is that it is very strict in its nature – it doesn’t mean friends or brotherhood – it is either a business or a meeting because of some project or basic enjoyment. It lacks the spiritual aspect of Union and Unity.

Therefore, all these faces you see out there, including Putin and Trump, are with the Jews – because to them – they are good “company”. And since we know the intention of the Jew, and they should also know it, we are talking about an intent that was done out of their own free will and admission – to join up with the Jews against the White Race. I mean, you do realize that both Trump and Putin have cut off the roots of their past by marrying their kids into non-White people? Putin’s first daughter is married to a Jew, the other one to a Korean. Even if he was White himself, against which a lot of evidence goes, his Roots are dead. He destroyed the “Ouroboros”.

Dress a goat in silk and it’s still a goat.

Not only is this true on a physical level, but also on a Spiritual. Every race-mixed person does not identify with the White race (silk). They get dressed up, look better, become smarter – and still identify as a goat. Take Beyonce for example – she has White DNA in her – but she is promoting Black Power and all that other nonsense. You have Jewish people who are 95% White, and they will still identify as Jews with that remaining 5%. This topic has a lot to do with Metaphysics and I guess I should analyze it once in an article – but, that is simply the reality of things.

Of course, as said, this proverb doesn’t change the physical reality – dress an Aboriginal in a suit and tie and he is still an Abo. By the way, our Movement should promote Abos more – the Jews are promoting race-mixed African Americans as Blacks and people suck up the idea that we are somehow all the same; show them the worst Abos out there; show them the true Black Africans with 0% White mixture – show them the god damn Truth.

Three candles dispel the darkness: Truth, Knowledge and the ways of Nature.

**Indeed – this seems to be the foundation of all our Wisdom – and our Racial Spirit in general.** This is basically what we stand for, what we fight for, what drives us – what calls deeply inside of us – it feels like “home”. I shall however add here one interesting note: when I look at the symbolism of our people and then look at the symbolism of secret societies, such as Masonry, all I see is European Pagans and Gnostics running away from the persecution of Christians and Jews.

Later on, as the Jew succeeded in infiltrating this system, it became complete shit. Suddenly, the Bible became the foundation of it – Jewish history became its essence – and the Jewish People the most important aspect of Masonry. Now, it is simply a Communist, Marxist front for Jews that brainwashes its members and Countries. Like with everything, Jews have taken control over the Past of Masonry and changed its Future. The very same thing they are doing to us now.

It is not with the first strike that the tree falls.

Yup, we are still standing – perhaps – we were even impossible to destroy this way. We have taken so many strikes and beatings and we're still standing. So many attempts were made to annihilate and destroy us – divide and conquer us – split and weaken us. And, finally, they realized that they can poison our very Roots in order to destroy us. Which means that if we manage to heal these Roots that we can return to our former glory.

A little hole will sink a big ship.

It will also go unnoticed. No wonder that the Jews are always such a small percentage of people within a Nation, yet manage to take control over everything. I mean you have to picture this in your mind – they are brainwashing the population to just and only seek Sex, Entertainment, Drugs, Alcohol – while they are working 24/7 on taking over the world.

The average Zombie out there does not understand this concept – that there actually exists a group of people which, from the moment they are born, is doing nothing else but working on this Global Empire of theirs. And how could these Zombies grasp such a thing when they compare Reality to their own degenerated Brains? They worry about the next episode of some TV show, while the Jew worries about bringing in more non-Whites into White nations. The little, undetectable hole. Your teeth decay the same way.

A man may live after losing his life, but not after losing his honour.

Honor. Such a strong word. Found very often among our Volk. It is the basis of our moral code, so to speak. Who will remember our politicians one day, after we have fixed this stupid World? No one. None of them had honor, especially the traitors. They will die and be forgotten – completely. And they deserve no less. What will remain behind them is a story of lies, deceit, corruption, betrayal – a story of how our own People tried to sell us out to the Jew. **We shall tell this story to every new-born generation, it shall become the basis of our revitalization – everyone will know the Death we avoided and how to prevent it from ever happening again.**

## Wisdom of our People #6

April 19, 2016 Axe of Perun

Greece! Many legends, stories and mythologies! So much knowledge and wisdom – so many philosophers – mighty warriors. Sadly, Greece was the closest to the Jews and their Arab cousins and therefore eventually disappeared due to Jewish influence. One might wonder whether or not it was ever a wise choice to travel to these lands at all, since they became “part” of the Kingdoms/Empires and eventually allowed Jews to roam around, steal knowledge or even influence our People. We could of course go through many of the heroic names of Greek Wisdom, but as usual, these ones are regarded the more “common” ones, so we’ll look into them :

Hunger fights castles and hunger surrenders castles.

I fear that one day soon something like this will hit our reality. The Jews pretty much control all networks of transport, technology, food, electricity, etc. I theorized once that they will choose a particular day when the people will expect it the least; it might even be a combined holiday weekend – you know when you have like 3 or 4 days off. No one will notice that transportation of resources has stopped. Suddenly, the stores will go empty and the non-White people, who will be armed by our greatest Ally, will start a literal Zombie Apocalypse. **Let us hope we can avoid this scenario.** These proverbs also let you know that they don’t really care how long it took them to finally take us over.

A woman and the sea are the same in anger.

Indeed, they are. Intelligent women that are still aware of our Race are the strongest motivators – they are literally ready to kick our asses to finally move out and get shit done. Any awakened woman realizes that her future depends on the cooperation of our People and that she is helpless if shit hits the fan one day. As I have said before, our Women were our greatest motivators throughout history. But, they also were our biggest Love and reason to fight for. Jews hit us really hard by destroying most of the Feminine aspects of our Women.

Eyes that don't see each other, soon forget about each other.

Even though this refers mostly to long-distance relationships, it holds true to our racial cause as well. They are bombarding us with non-Whites to such a degree that soon enough you won't see another white face during a whole god damn day. **With time, you will simply forget who you are, what you represent and where your spirit, love and loyalty lies at.** They are sending our kids to study in other nations, as if there is so much to be learned from Africa or India. I had friends who went to such places for years, "studying abroad"; they returned as different people – in the bad sense. They were weak willed to begin with and needed just this final push of "enrichment" to be completely broken.

God made the world and said : "He who has a brain will go on."

Sometimes it would be interesting if we could, just for a moment, merge all the people of different races into one single representative pair of male and female. You know, you'd have 1 white guy and 1 white woman, 1 black guy and woman, and so on. You'd also merge all they have every done and accomplished as a Race. Then, you would analyze them and then you would ask them : Are you really the same? Have you accomplished the same? Where would you be if other Races didn't help you? Where would you be if the White people didn't help you? Where would have your own brain gone? How far would you have made it? Would you even exist nowadays, or would you have faced complete extinction on your own?

**We had a brain. We moved on. And, by the Gods, we will go on.**

No matter how much you wash a black person you are wasting your soap.

Perhaps they really tried it once and finally said – fuck it – these people are just impossible to educate or change. Not much has changed thousands of years later, except for the Jews intentionally mixing Blacks with Whites in order to create the modern Mixed Black SJW army of lunatics. I love it how they want to tell us within our Nations how we are supposed to run things, yet in Africa – in their Nations – nothing is running properly. If they had any love for their race they would go down there and get shit right. But, they don't.

They never had a racial feeling – otherwise there would have been civilizations developing in Africa. Egypt was never a Black civilization – we could ask Blacks nowadays to decipher the Egyptian hieroglyphs then – surely they would have kept record of such a knowledge. We are simply supposed to believe that one day they completely got hit by some memory loss and IQ loss and went back to the Stone Age – they even forgot what a Wheel is – yet claim they were the Chariot warriors of Egypt. The truth of the matter is this – we have a rich history and culture – they do not. **Jealousy is driving both them and the Jews.**

Blood doesn't turn to water.

Let us be a little bit metaphysical here – just as we have fights going on between the races on our realm and existence, so is the same true for any higher or lower realm of existence. Which means that a mixed-blood person, mixed-race person, is in an on-going fight between himself – his two sides of himself – the two mixes. Just as Communism is “uniting everyone” under a lower level of existence, so is this mixing of blood adjusting the higher to the lower – the communist mixture of the Blood essentially creates also a Communist person. Therefore, you can't mix anything in Blood as it isn't water.

Another point is that water has its own system of existence, its own cycle – from rain, to river, from river to sea, and so forth. The cycle of Blood is different – it is transferred through the Mother to you, it cycles inside of you so that you may live and grow, and finally dies with you when it stops flowing. The only way to continue its existence is to transfer it again. **Imagine the responsibility we actually have as a Race to keep this Blood going on!** We realize its potential, its beauty, its difference – its excellence – and now, in the 21st century, we are being brainwashed to simply let it die – in every possible way.

Your child and your dog behave the way you teach them.

Good thing that Jews took over the education of our children, right? Good thing that Jewish “professors” are educating our kids in the supposedly high-end levels of our society. Why do we even wonder that for the first time ever in history there are so many faggots, transgenders, social justice lunatics, marxists, communists, feminist, etc.? It can't be any other way because Jews are educating them – they are teaching them to be degenerate. **We have to completely abolish the current educational system and educate our kids from home.** Let the Jews educate the Blacks, Mexicans and whatever other non-White humanoid they want to – we must make sure our children are not brainwashed.

Force and violence were given by God.

An important lesson. We have been paralyzed into believing that we mustn't ever use force again – yet whenever we are supposed to use it to further Jewish agendas – then it is no problem. But, if we want to defend ourselves, make things right again – then it is evil. Then you will suddenly have thousands of Christians preaching tolerance, love and whatever other nonsense you can come up with – but if Israel needs help – even the priests are ready to pick up a god damn rocket launcher.

Human things are a Wheel.

**Makes you wonder about the Blacks and other Races who never invented the Wheel, doesn't it?** I mean, just picture this for a moment: You could observe the night sky to see these round objects going around and you could eventually try to imitate them. Or you could have pushed a god damn rock downhill and see it rotate. You could have pushed the remains of a tree in order to see it go round and round – I'm really trying to come up with the most dumb examples – but you would just eventually come up with the idea of a circle moving on and would start to play with it. They didn't even do that.

We built our whole astronomical, astrological system around the Wheel. Mathematics, language, culture, nautics – everything. Even life itself became the philosophical aspect behind cycles, wheels, eternity. And then came the Semitic book of Cucking and told us that watching stars is Satanism, that astronomy and astrology are the work of the Devil, that all our books have to be burned and destroyed – that observing Stars is Hereticism. They even tell you that there aren't any stars, you are just imagining things, Goyim. Nothing is moving, there is no such thing as a Wheel or a metaphysical representation of reality based upon it – no, Goyim – you should be more like the Africans and stop hindering us from taking over the World. Watch some Hollywood movies and adopt some of them. God bless you.

A constant guest is never welcome.

**Well, I'll be damned.** Just as you wouldn't like to have a god damn Jew or Muslim stick around in your home forever, you shouldn't like to have trillions of them sticking around your nation either. But, this has a lot to do with our loss of racial feeling, our perception of us being an organism that is experiencing itself individually. We lost this concept – brainwashed by the Jews. It is laughable how the Jews managed to trick our people – I mean, we shouldn't really even call it a trick, because once you are able to accept millions of non-Whites into your nations from all over the planet just and only because someone is shooting someone else in one single Nation/Land – then you are pretty much the dumbest piece of shit on Earth.

Those ISIS warriors are rampaging around Syria and no one is supposedly stopping them – even the pro-White-Savior of the White Race-Putin-Russia didn't stop them – so this refugee bullshit story is supposedly never going to end – ever. Meanwhile, we got Africans, Indians, even Chinese people coming to Europe. I guess every now and then a missile ricochets in Syria to India and Somalia. And, these “guests” are here to stay. They aren't welcome in my book. And there is another, very simple reason for it :

An old enemy can't become a friend.

Instead of learning social justice, these dumb ass marxist leftist Zombies should learn about our European history, heritage and culture. Fucking Muslims have been attacking Europe for over 1400 years. Even if they are killing each other in the Middle East – what the hell has that got to do with us? Understand it? One group of Muslims is attacking another group of Muslims. **But all Muslims attacked us for over 1400 years.**

Why are you attempting to help them? Do you think that they suddenly changed? Did their holy book change? Did the stuff written in it change? Why do you think the Jews changed? Did the Bible or the Talmud change? Did the prophecy of creating a Jew World Order change? **Do you think that every single Jew who read the Bible and was raised as a Jew isn't dreaming about the Jew World Order?** He probably even has a god damn prayer in which he hopes that you will simply drop dead one day! No, they can never be our friends, ever.

The tongue has no bones, yet it crushes bones.

Indeed – what the Jews accomplished with Communism should be taught in every single kindergarten, let alone University. What they did with preaching the Bible to Europe is impossible to comprehend. It is unforgivable. If anything can be called a Serpent, then it is the Jewish tongue, even the Mind. The moment they think of something, it is Poison and Lie.

If you do not praise your own home, it will fall on you and squash you.

We pretty much are facing the reality of this proverb. Not only are we not praising our own homes, families and nations, but also our whole collective Race. Movies are depicting our racial heroes as non-whites; changing our history, our values, our facts. Education is focusing entirely on erasing our culture and heritage. Religion destroyed all of our ancient Wisdom and Knowledge and connection to the Earth and Blood. We have been bombarded from all angles with lies, deceit and traitors – it is a miracle that we are even standing anymore. **It is a miracle that still, even in these darkest of our times, sane minds and people are rising up and coming together.**

He who doesn't have a brain by twenty, shouldn't expect one at thirty.

Again, Jews used this one as well – you finish education in your mid to late twenties – by that time they pretty much know that they brainwashed you enough. And even if you ever wake up, they also know that it will be far too late and that you will find yourself in a violent

and alien environment – their controlled system – and that it will be impossible, for most cases at least, to function properly afterwards.

A good wife makes a good husband.

The anti-semitic lifestyle in one single sentence. The Bible hates women; we love them. The Bible wants to make them completely submissive – we love them to be free and trustworthy. Well, the Abrahamic follower could try to transmute this proverb to his own liking – the good wife is the one that is submissive, obedient and has a black eye from time to time. It will take us at least 1 or 2 generations to fix the relationship between our genders once more – to have the bonds that we once had. That pride, trust and love. But, it will return. It must return.

He who governs his home, governs his life.

**And who is governing our Nations? Who is therefore governing the collective Life of our Organism, the White Race?** Certainly not White people – because no White person would say that the White Organism should be less White. No White person would give non-Whites benefits that eventually would destroy the White people within its own Organism. No White person would constantly promote Race-Mixing with non-Whites. No White person would push non-Whites into moving to White neighborhoods. No White person would deliberately destroy and annihilate his own People. No, my friends – we are not governed by White people. We are governed by Jews.

Honor is priceless and glad be he who has it.

As with every set of proverbs, honor is the most important word in them. I wonder what the modern brainwashed marxist Zombie would even come up with as a definition of honor? **We should ask them, make a video about it – going around and asking random degenerates what honor is.** Is it honorable to destroy one's own people through diversity and multi-culturalism? Is it honorable to lower the education so that non-whites can pass tests? Is it honorable to feel guilt? Is it honorable to let non-Whites tell us within our own White Nations what we should be doing? Is it honorable for you to call me a racist, nazi, white supremacist, anti-semite if all I want is to preserve my People?

The best defense is good offense.

Indeed it is. But we aren't using it currently. Not entirely, at least. **Jews are using it – the whole idea of "anti-semitism" is based on this saying.** They just fucking attack you back with these worthless words that have managed to mindfuck our People. The same way they used Hell when preaching Christianity. The same way they used Heretic. The same way they use Racist, Nazi, Sexist, even White male as of lately. They always come

up with a stupid word that has to have a shocking element behind it – but – also notice, they always have something ready for you to redeem yourself with.

Jesus offers you salvation. Converting saves you from Hereticism. Race-mixing lowers your Racism level. Loving Jews makes you no Nazi. Being a faggot makes you no Sexist. Killing yourself makes you no White male. **Always remember – whenever you figure out a Jewish system – look for it everywhere in your life.** They never, ever change their tactic. And the best source of figuring out Jewish systems is the Bible. Hell, anti-semitism is part of the Bible :

*Isaiah 54:17 – No weapon that is formed against you will prosper; And every tongue that accuses you in judgment you will condemn. This is the heritage of the servants of the LORD, And their vindication is from Me,” declares the LORD.*

Ironically, this part of the Bible is called “Future blessings of Zion” by modern Bible followers. Guess Christian Identity forgot this part of the Zion plan. On the other hand, they call everyone who disagrees with them a Jew – so perhaps “Jew” is their own version of anti-semitism.

Better late than never.

**We woke up.** It wasn't easy. The challenges we face are incomprehensible; whenever we attempt to dismantle one part of the Jewish beast, another part of it grows. We are surrounded by Lies, Deceit, Traitors, Agents, masses of useless Zombies. **But, here we are. This is it. We know it, we feel it. We breathe it.** It can't go any further, it must be stopped. Our ancestors failed and whenever there was a chance to get rid of this Beast, our own people failed those who were awake.

Nevertheless, we have the internet now, social media, connectivity which we could have never hoped for – **and while we can** – we must use it relentlessly to spread the truth and nothing but the truth. No slimy faggot tactics, no playing the jewish game, no trying to fix things as our enemies expect it – we must be sharp, direct, fearless and angry. We must hate for this one purpose, so that we may have love everlasting afterwards. We must be unpredictable and unstoppable. We must aim for the head of the snake and get this shit over with.

**Our lifetime for the eternity of our People** – what more honorable thing is there? And you will live on for eternity as well, because our People will Remember you.
